The data

- geographical information
 - the name of the city or town,
 - the type of geographical area,
 - the area in square kilometre,
 - population concentration per square kilometre
 - the sale price of a property as stated on the transfer deed
 - the data of the transfer of ownership
 - the property types includes the categories: Detached (D), Semi-Detached (S), Terraced (T), Flats/Maisonettes (F), and Other (O).
 - Old or new - A Boolean flag indicates the age of the property as old or new. That is a newly built property is set to yes (Y), and an established residential building to no (N).
 - The duration relates to the a tenure, that is freehold (F) or leasehold (L).
- Price Paid transaction includes Standard Price Paid entry - (A) stands for single residential property sold for full market value. (B) includes additional Price Paid entry including transfers under a power of sale/reposessions, buy-to-lets (where they can be identified by a Mortgage) and transfers to non-private individuals is set to B. Note that category B does not separately identify the transaction types stated. HM Land Registry has been collecting information on Category A transactions from January 1995. Category B transactions were identified from October 2013.
